Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-9, drawn to a system and method for purchase order management, classified in class 705, subclass 37.
- II. Claims 10-12, drawn to a method of managing a customer's complaint, classified in class 705, subclass 1.

Invention I (1-9) has separate utility such as, the database server is used for storing customer data, product data, and purchase order data; the application server is used for managing purchase orders according to the customer data, the product data and the purchase order data, the application server comprising:
a product information maintaining module for maintaining and integrating information on products; a customer information maintaining module for maintaining and integrating information on customers; a product price information maintaining module for determining a price for each customer; and a shipment information maintaining module for scheduling production and shipment of products; and each of the client computers is enabled to visit the application server, and further to access data stored in the database server via the application server.

Invention II (10-12) has separate utility such as, receiving a customer's complaint about products; deferring shipment of the relevant products, and checking the products; resetting a purchase order; and enquiring whether the customer agrees to

reproduction of the products, and if the customer agrees to reproduction of the products, informing a relevant workshop to commence producing the products.

Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions I and II have different modes or operation and functions.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
